

ADAM TURNER

Mob: 07578863733

Email: hello@adamrichardturner.dev

Portfolio: <https://adamrichardturner.dev>

Freelance Web Developer seeking permanent or contract JavaScript / TypeScript developer roles in the United Kingdom. Skilled with React, Redux, Next.js, JavaScript / TypeScript and WordPress. Happy to work on-site, remotely or hybrid.

EMPLOYMENT HISTORY

Freelance Web Developer: Self-Employed, March 2020 – Present

Working as a sole-trader and under a limited company – www.techeo.co.uk – I have completed numerous WordPress contracts for various clients locally and abroad to a high standard, often receiving very positive feedback.

Junior Frontend Web Developer: Lyle & Scott (FTC Central London), May 2019 – Feb 2020

As a Frontend Developer on the eCommerce team, I worked closely with the design / marketing team and internal stakeholders to produce homepage updates, landing pages and regular adjustments to the website.

Salesforce Commerce Cloud administration – updating content slots, scheduling content and replicating changes to the live site.

Bronto Email Marketing Platform – building HTML marketing emails, creating segments and lists, workflows (automated personalised emails) and scheduling emails to be sent to a large database.

eCommerce – part of a wider e-Commerce team and trading function. Regular meetings to discuss strategies, aesthetic concerns with the website and marketing promotions.

2nd Line Desktop Support Analyst: Alliance Healthcare (Chessington, Surrey), 2017 – 2018

Technical escalation point for the Service Desk 1st line team. Administered Microsoft Exchange features and Active Directory, configured and trialed Lansweeper (network discovery tool) for inventory analysis.

Project Work – e.g. assisting Project Managers in setting up of a large call center by desktop and software configuration for call centre agents.

IT Support Engineer: Truebyte (Central London), 2014 – 2017

Maintaining and developing IT Systems at various Architectural and Engineering consultancy practices in London.

EDUCATION AND QUALIFICATIONS

Codecademy: Full Stack Engineer Certification (2022 – Present)

Currently enrolled on the remote Full Stack Engineer certification. You can view all my certifications obtained via Codecademy on my profile:

<https://www.codecademy.com/profiles/adamrichardtturner1988>

Get into Web Development: The Prince's Trust (2019)

Covered a solid grounding in HTML, CSS and JavaScript with a focus on coding for design. UI/UX design with Figma. Set up a blog with Jekyll and Netlify.

Completed a design brief and implemented a web-based photography shop using Shopify. Designed and coded 10 websites.

BA (Hons) History: University of Reading (2007 – 2010) - 2:1 Grade

Developed excellent research, writing and presentation skills with a focus on 20th Century modern European, Political and Economic History.

Dissertation on “British Foreign Policy and Cuba: 1959-62”

SKILLS

I'm talented with a variety of technical skills obtained via experience in industry and self-taught or attendance-based courses:
